

HI·MACS

The shape of your ideas

White is the new colour of sustainability

The iconic HIMACS Alpine White, plus a wide selection of colours, now come with SCS Certification for recycled content. Go ahead, shape your ideas sustainably.

The same flexibility, now with more sustainability

HIMACS has been the material of choice for architects and designers worldwide. And now, to add to its extraordinary thermoforming abilities and translucent possibilities, several of its collections now come with SCS certification for pre-consumer recycled content. Making it a clear winner when it comes to shaping your ideas for the future.

Certified to impress

When sustainability is a key factor for your projects, HIMACS offers a lot of design possibilities along with the most important product verifications, classifications and certificates.
